

Lake Valley Seed Co. is SO FINE!!!

Why you ask? When I called Lake Valley Seed Co. (Dawn & Bev) and asked if we could get some seeds for the three greenhouses we were going to build in Andes of Ecuador – (at 9,500 ft; 10,500 ft; and 12,000 ft.) they donated bunches of great & useful seed!!! The people were SO EXCITED!

ABOVE: A minga (Kichwa for ‘volunteer work’) in Quinta Tunguiche preparing the area for the greenhouse.

AT RIGHT & BELOW: The mingas in Malingua Pamba creating the framework.

Shown is just a percentage of the Lake Valley Seed Donation. The Kichwa seemed even more excited about the seeds than the greenhouse!

BELOW: Completed GH in Guantugloma.

If you would like to see more photos and/or follow-along with the planting, please view our webpage:

www.escuelaminga.org and/or Facebook at [Centro Educativo La Minga](#).

Mil gracias por todo!
Abracitos – little hugs ;-)
